

VISITOR RESTRICTIONS

**For the health and protection of our patients,
Hospital staff and the community,
The following
VISITOR RESTRICTIONS
Are currently recommended:**

Visitor Restrictions:

- People age 12 or younger, or those with a fever, cough, body aches, sore throat, or who are immunocompromised should not visit the hospital or hospital affiliated clinics, unless they are seeking healthcare.
- Visitors are limited to one visitor per patient throughout the facility.
- Visitors are not allowed in the Emergency Department except for children 18 years and under who may be accompanied by one visitor.
- No visitors are allowed on our Transitional Care Unit (TCU).

Effective March 19, access into the hospital is limited to the main door, only. Entrances into the Professional Office Building remain open.
